Equity and Social Justice; From Theory to Practice

World History to the End of the 15th Century

Introductory Kinesiology

AMG3O

EWC4U/4C

HSE4M

CHW3M

PSK4U

E-Learning Courses

Rainbow District School Board teachers deliver online courses using a learning management system that students can access at school and at home. Students can supplement their timetable with an online course, giving them greater flexibility and choice in completing their secondary school diploma. Students can take courses that are not available at their home school or not accessible due to scheduling conflicts. The online courses provide a new learning option for students – one that maximizes the use of technology. E-Learning courses are very interactive. A wide variety of technology is used to support online learning, including electronic whiteboards, chat rooms, e-mail, and discussion groups. Contact your Guidance Department for the current list of e-Learning courses offered by Rainbow District School Board.

E-Learning courses are for courses that are not offered by MSS or do not fit into a student's schedule. To be approved to take an e-learning course students must be in Grade 11 or 12 and not have failed any courses. It is recommended that e-learning students have all previous final grades above 65%. Please state the e-learning course you would like when you are about to submit your choices. If you choose an e-learning course please choose an alternate course. For more information on potential e-learning credits that may be offered please make an appointment with your guidance counsellor.

Manitoulin Secondary School Dual Credits

Dual Credits are offered by Cambrian College. Students are able to earn credits towards their secondary school diploma as well as post-secondary diploma or apprenticeship certification. Each course gives students one grade 12 secondary credit and one 1st year college credit. Please see your guidance counsellor for additional forms.

Exploring Art and Design (AFDC) College Connections (GLH4T) and maybe others.

Specialist High Skills Major Programs (SHSM): Arts & Culture & Agriculture

SHSM is a specialized program designed to allow students to focus on knowledge and skills of particular importance in an economic sector, while meeting the requirements for the Ontario Secondary School Diploma (OSSD). Students are able to obtain certifications and/or training recognized by the sector as part of the SHSM requirements. This program is an excellent opportunity for students to build their skill base, acquire valuable certifications and to network within the Arts and Culture or Agriculture industry.

With the help and guidance of SHSM program leaders, students will:

- choose courses that align with the arts and culture or agriculture industry
- participate in learning and career exploration activities (job shadowing, trade fairs, tours, etc)
- participate in 'reach ahead' activities (interview industry professionals, complete dual-credits, etc)
- Complete a co-op placement in the arts and culture industry
- Complete 6 industry certifications (CPR, WHMIS, First Aid, et)
