*\*These courses WILL be offered next year but will not be offered during the 2022-2023 school year.*

PLEASE NOTE:

Students should check to be sure they have the prerequisite to take the courses they are choosing.

Grade 9, 10 & 11 students must select 8 courses and take 4 courses each semester.

All students MUST have 23 credits in order to have a study period.

Students in Grade 12 must select at least 6 courses but 7 are recommended.

All students must be full time students. Exceptions may be made with the permission of the Principal.

Courses may be cancelled if there are insufficient numbers.

Students are encouraged to consult their parents, their school counsellor and their subject teachers before selecting subjects and choosing the level of difficulty of each subject. It is of prime importance that the program of studies selected will provide them with the requirements which their future educational program will demand.

**Since students have free choice in the selection of their subjects, changes will seldom be allowed once their final selection has been made. The timetable is determined by student course selections. Only under very exceptional circumstances and only with the permission of the Principal will students be allowed to change courses during the school year.**
